

Battery Charger for Mobile Telephony Endpoints

GMC08

GMC08 is Grandstream's battery charging pack for its mobile telephony products, including the WP800 series and DP730. It features 8 independent slots to fully charge or discharge multiple batteries simultaneously. For added flexibility, the GMC08 comes with three charging capacities for air shipment, storage capacity control and long endurance. It offers reliable performance and efficiency thanks to built-in over-voltage, over-charge, over-current, and short-circuit management as well as leak protection.

Charging Battery Type	Lithium Ion battery
Charging Battery Count	Up to 8 batteries
LED	8 independent dual color LEDs for charging/discharging status
Fan	1 fan for temperature control
Other Features	Three capacity levels: Low-capacity (20%-30%) for sea/land/air transport, intermediate-capacity (60%) for extended duration transportation and storage, and high-capacity (100%) charging
Safety	Auto temperature control with cooling fan for high temperatures Device shut off under extreme temperatures
Power & Green Energy Efficiency	Universal power adapter included: Input: 100 ~ 240V 50/60Hz; Output: 12VDC 2A (24W)
Temperature & Humidity	Operation: 0-55 °C Storage: -10-60 °C Humidity: 10-90% (non- condensing)
Unit Dimensions	220mm x 190mm x 54mm
Net Weight	466g
Supported Models	WP820, WP810, DP730
Package Content	GMC08 charger, power adapter, quick installation guide
